“NOBLE TRADITION”

November 18, 2004

Dear Mare Owner,

Thank you for considering breeding your mare to AQHA World Champion and World Champion Sire, NOBLE TRADITION in the 2005 season. Zoerado Mills along with Mills Quarter Horses and ERS are committed to breeding horses that will have a positive impact on the future of our industry.

We are very excited with the acquisition of this legend of the breed. NOBLE TRADITION, out of Impressive by the great Magnolia Gay, has proven repeatedly, through his stellar show career and superior foals, his potential to lead the halter industry into the future. NOBLE’S get and grand get, are exhibiting the desirable traits he himself possesses, Conformation, Beauty, Bone, Balance, Natural Movement, Over All Athleticism, Ease in training and Willingness to please. Then, there is the bonus of N/N, preserving the future health and integrity of the Halter Horse.

NOBLE TRADITION’S record as a breeding stallion stands as an ongoing example of a truly prepotent sire. His daughter, SACRED, herself a legend of the show ring, has proven herself to be a broodmare of World Class caliber. His daughters form a maternal circle of genetic power that will be felt for generations to come. They are treasured as a cornerstone in the most exemplary broodmare herds. Noble’s genetic prepotence resonates with each further generation of World

Champions, AQHA, APHA and ApHC, through both sons, daughters and grandget.

NOBLE is enjoying his new home at Karen Berk's ERS Stallion Station, Ocala Florida, with it's state of the art, full service breeding facility. Our highly experienced reproduction staff promises to work diligently to provide the best mare care possible, at the farm, or to provide Shipped Cooled Semen or Frozen Semen, in a timely manner to meet your requirements. Noble's stud fee for 2005 is \$2000.00, and he is AQHA Incentive Fund, Just for Halter nominated. A wonderful breeder, Noble had a 100% conception rate in 2004. ERS also collects and ships 7 days a week for your mare and veterinarian's convenience. Please contact us for a breeding package. We are always available to discuss your mare/breeding program, and the ERS commitment to your satisfaction and success.

Thank you for joining with us to create and perpetuate a NOBLE TRADITION of raising the standard of Halter Horses, for future generations.
